

Design Source | Terracota

Public areas can vary from hotel lobbies and office blocks to factories and shopping malls.

What makes a great hotel lobby for example? The overall atmosphere created by the size of the space, its layout, furniture, the use of materials and the use of colour and texture. These elements must be brought together for it to stand out from a design perspective. And that is where S.A.W. Ltd comes in.

Working alongside designers and architects, we provide structural solutions to our clients needs. We have completed many office blocks, hotel lobbies and shopping malls bearing one thing in mind - unique designs. We amalgamate functionality with art, comfort and beauty, creating contemporary live-enhancing forms and spaces that are a true cultural expression of today's life.

From furniture for public areas, bars and pubs and restaurants, to retail outlets, hotel rooms and luxury residences, the company ensures that each project remains a one-stop shop solution for clients taking designer drawing from concept to completion. S.A.W. Ltd integrates a variety of different materials ranging from stainless steel, brass, iron, glass, mirrors, marble, stone, upholstery and man-made and natural wood to create unique furniture pieces.

S.A.W. Ltd offers endless possibilities, attending to the client's specific needs from start to finish.
